7 new colours for 2013!

At Duni, we love colours. That's why this year's collection can certainly be characterised by exciting new complimentary shades! The new tones are splendid additions to the Duni colour world and combine superbly with our design collections. We have sunny-warm tones inspired by landscapes and Indian summer, like soft orange, mandarin, mid blue and herbal green. And dynamic, fresh, bold and vibrant hues, such as fuchsia, kiwi, pacific blue, mandarin and the brilliant soft lemon yellow. And for a brilliant contrast, elegant colours like black and plum with metallic accents. This Duni palette is for painting a masterpiece!

Our commitment to the environment

Environmental issues are becoming more urgent day by day. We're constantly looking for new technology and techniques to reduce the impact of our napkins and tablecovers. Over the years, our practices have progressed from responsible forestry and efficient production to making our products compostable and relying more on renewable energy. Look down to see how these efforts have added up to eco-friendly practices at every stage of our table-top products' lifecycles:

From tree-tops to table-tops

Learn about our never-ending effort to go greener at duni.com

Did you know: Life cycle assessments (LCA) show low carbon footprint for forest fibre based products. Duni LCA studies found no significant difference in environmental impact between Duni Premium table top products and textiles.

How to create atmosphere

It is well established that excellent atmosphere is the most important factor in acquiring and keeping customers in the hospitality business. As the operator of restaurant or pub, it's crucial that you know exactly the kind of atmosphere you would like to create and how to achieve it. The best way is to start it with colours. This year's collection can clearly be characterised by all the exciting colours we offer and this is certainly true when it comes to our candles. We have sunny-warm and cosy tones, like soft orange, mandarin, mid blue and herbal green. And dynamic, fresh, bold and vibrant hues, such as fuchsia, kiwi, pacific blue, mandarin and soft lemon yellow. And elegant festive colours like black and plum with metallic accents. At Duni, we love colours. What atmosphere would you like to create?

The RAL Quality Mark is the visible sign of quality proven candles and guarantees the following benefits:

- The candle burns as long as stated on the package.
- Minimised smoking and soot of candles and therefore, minimised contamination of the room air.
- Only high-quality wicks, free of impurities, are used in production.
- The manufacturers are obliged to use neither contaminated raw materials nor hazardous candle colours or lacquer.
- Candles consistently retain their shape, measurements, and wick properties.
- Safe and reliable when used according to instructions.

In addition many candles also meet the strict requirements of the scandinavian eco label Swan.
